---

## SKILLS

**Languages:** Dart, JavaScript, Python, SQL
**Frameworks:** Flutter, React Native, Node.js, Django
**Databases:** Firebase, PostgreSQL
**Tools:** GitHub, Figma, Blender (animation), REST APIs
**Other:** App UI/UX Design, State Management, GitHub Actions

---

## PROJECTS

**Sellify** – MSME Inventory & Profit Manager
Flutter + Firebase app to track inventory, roles, and profits for Indian businesses. Includes alerts, reports, Razorpay payments.

**Genome-X** – Genetic Risk & Diet App *(Stealth)*
Processes blood reports (WES/WGS), detects risks, and gives AI-backed diet plans. Built with Firebase, Python, encrypted upload, and Blender intro animation.

**Celeste** - *(Stealth)*
AI-powered dating + event platform based on compatibility quizzes and horoscopes. Uses Firebase, Python, secure chat, subscriptions.

**FreshCart** – E-commerce App UI
Designed a full grocery e-commerce frontend in Flutter with cart, product tiles, category filters, search, and sleek responsive layout.

**Portfolio Website**
Tailwind & Vite-based site with animated scrolling and contact form.

---

## EDUCATION

**Bachelors in Computer Applications**
PES University , Bangalore | 2023–2026

---

**CERTIFICATIONS**

- Flutter Development Bootcamp – AppBrewery

- Firebase in Practice – Udemy

---

**ANIMATION**

Proficient in 3D and motion animation using **Blender**
Created animated intros and transitions for web/mobile apps
